2-66, Fazilnagar, Vemulawada – 505524

## Career Objective

Analytical and detail-oriented Data Science undergraduate, seeking an Data Analyst Role. Skilled in Excel, SQL, Python, Power BI with hands-on experience in data analysis, documentation, and dashboard development through projects and virtual internships. Eager to contribute analytical and problem-solving skills in fast-paced startup environment.

## Education

|                              |               |
|------------------------------|---------------|
| ACE Engineering College      | 2023 – 2027   |
| B.Tech in CSE - Data Science | CGPA: 8.88/10 |
| KGBV Vemulawada Rural        | 2021 – 2023   |
| Intermediate                 | 98.5%         |
| KGBV Vemulawada Urban        | 2020 – 2021   |
| SSC                          | GPA: 10.0/10  |

## Skills

- Programming & Databases:** Python (Pandas, NumPy, Matplotlib, Seaborn), MySQL, PostgreSQL, DDL, DML, Joins, Aggregate Functions, CASE Expressions, Subqueries, CTEs, Window Functions, Views
- Data Analytics:** Data Cleaning, Data Validation, Exploratory Data Analysis, Statistical Analysis, KPI Analysis, Data Manipulation, Data Visualization
- Spreadsheets:** Microsoft Excel, Google Sheets, Pivot Tables, XLOOKUP/VLOOKUP, IF, SUMIFS, Data Validation
- BI Tools & Platforms:** Power BI, Tableau, Jupyter Notebook, GitHub, Microsoft PowerPoint, Google Workspace
- Professional Skills:** Analytical Thinking, Problem Solving, Communication, Team Coordination, Accountability, Presentation Skills, Documentation, Time Management

## Projects

- Social Media Analytics** — Designed and analyzed users, posts and engagement tables in MySQL; used joins, subqueries, CTEs, views, aggregate functions and window functions to identify top creators, trending posts, content performance, active users and engagement patterns. Developed 25+ reusable SQL queries to answer business questions.
- Hand Gesture Controller for Web Apps** — Built a real-time, contact-free system using MediaPipe and PyAutoGUI to control web applications through hand gestures, enhancing accessibility and usability across domains.
- Production-Ready URL Shortener Service** — Built a backend service using NestJS, PostgreSQL, and Prisma with API authentication, caching, validation, logging, and pagination, supporting secure redirects at production scale.
- Global Data Hub** — Built a web platform that retrieves and visualizes demographic, geographic and economic information for 190+ countries using the REST Countries API.

## Professional Experience

- Data Analytics Virtual Internship** — EduSkills Supported by Google Cloud **Apr–Jun 2026**
  - Completed cloud-supported training in data preparation, analysis, visualization, structured-data interpretation and insight generation.
- Deloitte Australia Data Analytics Job Simulation** — Forage **Jan 2026**
  - Performed data and forensic analysis using Excel and Tableau; developed a dashboard and communicated key business findings.
- Tata Group Data Analytics Job Simulation** — Forage **Feb 2026**
  - Conducted EDA and risk assessment on financial-services data and proposed predictive-modelling and collections-strategy frameworks.
- Quantum Data Analytics Job Simulation** — Forage **May 2026**
  - Performed data preparation and customer analytics, identified purchasing trends, and applied uplift testing and A/B analysis.

## Publications

- Hand Gesture Controller for Web Apps:** Published in *International Research Journal of Modernization in Engineering Technology and Science (IRJMETS)*, Vol. 07, Issue 06, June 2025.
- Document Similarity & Deduplication Tool:** Published in *International Journal of Creative and Open Research in Engineering and Management*, Vol. 02, Issue 04, April 2026.
